

BUDGET

FOR THE

HB LAPTOP REPORT

Every law enforcement agency at the federal level in the United States is *captured*. The Federal Bureau of Investigation (FBI), after much prodding, *finally* took possession of Hunter Biden’s laptop—which was abandoned at a Wilmington, Delaware computer repair shop—in December 2019. FBI Special Agents Michael Dzielak and Joshua Wilson, the latter being a child pornography investigator, took more than two months to respond to the shop owner. When the agents finally did take possession of the laptop, the subpoena was under the pretense of investigating money laundering. Every major news outlet and think tank in America—on the left and right—is too cowardly (they will call it *litigation averse*) to comprehensively investigate the numerous felonies on the laptop. And then, to top it off, the social media oligopoly censors the truth.

We the people formed a Union to establish Justice. The Biden regime is simply *not* interested in that; instead, it protects a corrupt and nepotistic bipartisan establishment. Marco Polo, led by a former White House official, is a small research group exposing corruption and blackmail to drive an American renaissance. They possess a copy of the laptop. They will write a comprehensive report—comparable in length to the Mueller report—on *real* foreign collusion with the Chinese (and others) for 1% of the cost. **Help them make that happen.**

COSTS

OF THE

RUSSIAN COLLUSION HOAX

Mere days after recommending that President Trump fire FBI Director James Comey in May 2017, acting Attorney General Rod Rosenstein appointed Robert Mueller—*another* former FBI Director—as the Special Counsel. Mueller’s report, unsurprisingly, found no collusion between Russia and the Trump campaign. Mueller and his dozen prosecutors fleeced the American people for over \$15 million and we still do not know the central question: *Where* is Joseph MIFSUD and who was he working for?
